

5 questions for your dermatologist:

1. How should I take care of my skin?

2. Are there skin cleansers and moisturizers you recommend?

3. Can I keep wearing makeup and/or sunscreen?

4. When should I notice improvements?

5. What are my treatment options?

5 questions your dermatologist may ask you:

1. How much is your acne bothering you?

2. What treatments have you tried (over-the-counter and prescription)?

3. Have they worked well for you?

4. Do you find your current treatment (if any) easy to take and stick with?

5. What are you looking for in a treatment?
